

DEVELOPMENT SERVICES

Project: Land of Leopold

ENGAGEMENT DETAILS

B8 Development Services was hired in June 2013 to prepare a professional budget, schedule and financial plan for the film LAND OF LEOPOLD.

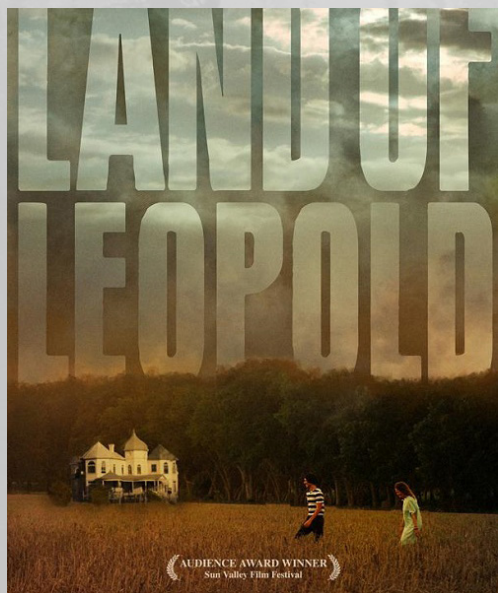

After engaging in the initial service work the B8 Development Team and LAND OF LEOPOLD creative team formed a close bond and strong working relationship that lead to a full production partnership.

DELIVERY DETAILS

B8 Services delivered on all retained work (including closing the financing for the picture) before transitioning into full on producers for the film.

Buffalo 8 Productions produced the film in summer 2013 on location in Texas, wrapped up post-production at the Buffalo 8 facilities and sold the film directly to HBO Europe and Amazon Digital.

B8 Services prides itself on building lasting relationships with clients that flourish into world-class projects.

“Buffalo 8’s Production Services really took my project, LAND OF LEOPOLD, to the next level in a timely, efficient and effective way. We are now seeing the payoff as the film is winning awards and getting into multiple festivals.”

- writer, producer and star Chris Pinkalla
